## DETAILED ACTION

### *Allowable Subject Matter*

1. An "Amendment" was received on March 27, 2006, in response to Office Action of November 30, 2005. Claims 1-19 have been canceled and new claims 20-32 have been added, as indicated.
2. Claims 20-32 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. With respect to amended independent claim 20, prior art fails to disclose a screen made of radioprotective material for ensuring protection of an operator against x ray-type ionizing radiation emissions or the like, comprising: a front wall having lower vertical section and an upper transparent section that is tilted forward at a fixed angle of 10-30 degrees relative to the lower vertical section over an operator work zone, the upper transparent section having two orifices therein for an operator's arms; and vertical side wall extending away from the operator work zone generally at right angle from one side of the front wall, the side wall having one side conforming in shape to the fixed angle between the lower vertical section and the upper transparent section, the side wall having transparent panel over a portion of a height of the side wall.

Claims 21-32 are allowed by virtue of their dependencies on the independent claim 20.

**Conclusion**

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments of Statement of Reasons for Allowance".
